Guy Riggins

American Red Cross Community Disaster Program Manager - Quad Cities & Northwest Illinois
Davenport, Iowa, United States

Summary

As a Community Disaster Program Manager (CDPM) for the American Red Cross, I contribute to community preparedness, readiness, and response to manmade and natural disasters, big and small. Our organization works largely with families and individuals who have experienced home fires or apartment fires, and we also prepare for and respond to all sorts of large-scale scenarios. The last three years have been active tornado seasons.
